

Certificate of Approval
as supplier of the German Aerospace Industry

It is hereby certified that

Heicks Industrieelektronik GmbH
Am Schwarzen Weg 25-31, 59590 Geseke

has been audited in compliance with the Quality Assurance Requirements of the

German Aerospace Industries Association (BDLI)

QSF-C

equivalent EN/AS 9100

The scope of the audit and all other relevant details are documented in the
audit report of Goodrich Lighting Systems GmbH, 59557 Lippstadt.

Audit Report No. 17/12/2010 dated 17. Dec. 2010

All applicable requirements are met.

The above mentioned company has the following fundamental prerequisites in place:

1. a Quality Assurance Manual defining the duties, authorities and responsibilities of personnel in the capacity of influencing product quality;
2. a Quality Assurance System, which provides evidence of conformance of all measures carried out during the procurement, manufacturing, and utilization phase,
3. and written procedures, instructions and directives, approved by the Quality Assurance Manager, which ensure the effectiveness of the Quality Assurance System.

This certificate is in effect for two (2) years after date of assessment report.
Extensions may be granted upon request.

Lippstadt, 21st day of December 2010
